

Established in 2016, Dutch Ridge Consulting Group holds a Top-Secret facility clearance, is 100% US owned, and is ISO 9001:2015 certified. DRCG is a Small Business Administration (SBA), Veteran Small Businesses Certification Program (VetCert), Service-Disabled Veteran-Owned Small Business (SDVOSB) and Veteran-Owned Small Business (VOSB) certified. DRCG is NIST 800-171 compliant and CMMC3 ready. DRCG recognizes an increased need for secure video interview capabilities. DRCG's partnership with Issured makes private, secure, and tamper evident remote video interviews readily available today with the MeaConnexus solution.

Private, Secure, and Tamper Evident Remote Video Interviews

In an age of deep fakes and digital disinformation, safeguard the authenticity of your video interviews with cutting edge technology that can be deployed across your organization in minutes.

Mea | CONNEXUS

MeaConnexus is a secure, immutable video interview solution, designed for law enforcement and any type of investigative interviews. Create and hold secure interviews with anyone, anywhere, on any device with the confidence that the content can always be proven to be authentic.

Key Features

- Blockchain technology for evidential integrity of interview data
- Silent Observer – Virtual 2-way mirror
- Easy interview data management
- Real time speech to text transcription immediately available at the end of the interview
- No Hardware to install, use on any device
- NIST / CJIS Compliant

Blockchain Evidential Integrity

Reduce the number of challenges on the integrity of information presented within a video interview or meeting.

Reduced Travel Time

Interviews and meetings can be conducted at a fraction of the cost associated with travel.

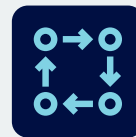

No Download or Hardware

Access all of the tools without downloading new software.

Convenience

Provides the ability to engage and collaborate with you at a time and location that suits them.

Operational Efficiency

Removes geographical and other barriers to arranging mutually convenient time and locations for interviews.

MeaConnexus is designed and developed by **issured**.
